### Germans, Frenchmen, Swedes, Englishmen and Irishmen, read the following:

SCHUYLER COLFAX, the Republican Candidate for Vice President, when he was a leading Know Nothing, said:

"I may possibly see the day that I may walk side by side with a colored woman. I have seen a great many colored women that I would rather walk with than a great many white Irish and Dutch women. I know a great many negroes who I think are better entitled to vote at this moment than a majority of the foreigners who do vote, and who have long exercised the right of franchise. An intelligent negro is better than a foreign born Roman Catholic, and is more entitled to a vote. And if Democrats give the right of suffrage to the foreign pauper, (and nine-tenths of the foreigners are paupers) to whom a spelling book is a sealed mystery, and who still smell of bilge water, and from whose garments the Celtic aroma or the Teutonic fragrance of the fatherland has not been removed by the pure air of freedom, why should not their superiors, the descendants of Africa's sunny land, have a voice in the management of this government. The Democratic party is composed of bug-trotting, ignorant, Catholic, Irishmen, swag-bellied, lager beer Dutch, frog-eating Frenchmen, English paupers, slim covered Swedes and low, ignorant Americans. Therefore I hold that negroes are better entitled to the elective franchise than any class of foreigners, and COULD I DICTATE, I WOULD TAKE THE FRANCHISE FROM NATURALIZED CITIZENS AND GIVE IT TO THE NEGRO."

Naturalized citizens, the Republicans ask you to assist in electing that man to the Vice Presidency. Will you do it?

GRANT'S CABINET.—If General Grant should unfortunately happen to be elected (there is no danger of his election however), his Cabinet has been agreed upon, as follows: Secretary of State, John C. Breckinridge; Secretary of Treasury, Simon Cameron; Secretary of Navy, Joseph Brown of Georgia; Secretary of War, W. G. Brownlow of Tenn.; Postmaster General, Felix O'Brien; Attorney General, B. F. Butler; Secretary of the Interior, Fred Douglass.

STORY.—The full report of the proceedings of the Soldiers and Sailors' Convention at Philadelphia, have been received in this State, but not one of the Republican papers have as yet published Gen. Sigel's letter. What's the matter? why don't they publish it? We reckon it don't suit them exactly.

VOTE FOR HIM.—Naturalized citizens should most certainly vote for Grant, cause why, in his opinion, "one company of nigger soldiers was better than a regiment of ignorant Irish and drunken Dutch lammers, who enlisted so as to secure board at the expense of the Government." Vote for Grant.

ADMIRAL.—The Republicans of S. F. admit that that city will give 2,500 majority for Seymour and Blair, but the Democrats claim 4,500 majority.

## The Prospect.

It is an old saying, but one containing more truth than poetry, that a "saint heart never won a fair lady." It is also equally true that a faltering trust never yet planted the banners of a great cause upon the ramparts of success. We have been much pained in the last day or two, to meet Democrats, true to the faith, who taking the lying reports of the subsidized wires, and the still more subsidized and mercenary news-agents on the other side, have prognosticated defeat for the Democratic ticket in November. Such men have been operated upon by their fears instead of their judgments. As we view the field, there is no cause for despondency. We unhesitatingly say, not that all is not lost; but nothing is lost. On the contrary, our gains have been, wherever the wires have deigned to go into details, very great. There is no doubt now that we have carried Indiana, and in Pennsylvania the majority has been dwindling down from day to day, until one dispatch puts it at 3,000. Ohio, we all set down as uncertain. Where, then, the causes of alarm or apprehension? We must confess they are not apparent to our mind.

Let us take a brief glance at the figures, and then each can judge for himself. We put down the following States as certain for the Democratic ticket:

States.	Electoral votes.
Alabama . . . . .	8
Arkansas . . . . .	5
California . . . . .	5
Connecticut . . . . .	6
Delaware . . . . .	3
Georgia . . . . .	9
Indiana . . . . .	13
Kentucky . . . . .	11
Louisiana . . . . .	7
Maryland . . . . .	7
New Jersey . . . . .	7
New York . . . . .	33
North Carolina . . . . .	9
Oregon . . . . .	3
South Carolina . . . . .	6
West Virginia . . . . .	5
Total . . . . .	137

The whole electoral vote of the United States, including Virginia, Mississippi and Texas, is 317. As these States, however, have been declared, by act of the usurping Congressional Directory at Washington, Territories, and not entitled to the rights and privileges of States, and it has been made a criminal offense for their people to attempt to vote for Presidential Electors, deducting their votes, it would reduce the full electoral vote 27, and leave a total 290. A majority of this sum is 146. Thus it will be seen that Seymour, outside of the certain States, only lacks 9 votes of election. To get these, we first turn to Pennsylvania. Her vote is 26, which would swell Seymour's vote to 163, or 17 more than enough to elect him. This would enable us to lose Arkansas, 5, West Virginia 5, and South Carolina 6. Next turn to Illinois. The population of that State is very much the same as Indiana—her interests are the same, and all accounts from there show that the banner of Democracy is full high advanced and victory already gleaming from its folds. We have little doubt but that they will carry Illinois. Then Illinois added to 137, gives us 153. A majority of this sum is 146. ## LOCAL ITEMS.

ELECTION.—On Tuesday, November 3, the Election for President will be held.

PREACHING.—The Rev. W. J. White will preach at the Court House, to-morrow (Sunday) evening at 7 o'clock.

COURT.—The County Court will be in session on Monday Oct. 26th, and also on Monday, Nov. 2d.

REPAIRED.—A number of men are at work upon the trail between 12 Mile Bar and Rich Bar.

TAX NOTICE.—The Tax Collector will visit several precincts next week to collect taxes.

CLOTHING.—The largest stock, the most fashionable and select assortment of clothing in San Francisco, can be found at the well known establishment of Houston & Co., under the Lick House.

AKE.—A severe shock of an earth quake, lasting about one minute, was felt at Mohawk Valley on Wednesday morning last, at about 8 o'clock. It was by far the heaviest quake ever known at that place.

OPENED.—For the first time this season, the Indian Valley & Honey Lake road is open for travel with wagons. Considerable grain is being taken from Indian Valley over the road.

KILLED.—Mr. E. D. Springer, formerly proprietor of the Vernon House, Taylerville, was instantly killed at Reno, Nevada, on Monday last, by being run over by a loaded wagon. We did not learn any particulars of the accident.

AS USUAL.—Last week, the National claimed 125 majority for Grant in Plumas, this week it comes down to 100 and says it has got money to let on it. Bush, if a Democrat would go with money to take a couple of hundred on that proposition, the Repub would fall to 75, the thing has been tried, hence we know.

COURT.—The District Court will meet on Wednesday, at which time the Railroad case will be tried. The Attorney General has notified Gear & Van Cleave, that unless the case is brought to trial at that time he will be compelled to dismiss the action, that it is such an important case it should not be passed over this term of Court.

BELL RINGERS.—Bautista's Troupe of Swiss bell ringers, gave a performance at the Plumas House, Hill on Wednesday night last—their troupe will give another on entertainment at the same place this Saturday evening. The bell ringing and musical part of the performance was very good, but a much smaller dose of the balance would be all sufficient for a Quincy audience.

BUTT AND GOING.—A friendly sort of fight took place at Sawpits Monday night last, between Bob Drake and a man named Miller. Both parties were playing cards when some trouble arose, and a fight ensued, during which, Drake bit off one finger and a portion of Miller's nose. The finger was left off at the second joint, and instead of swallowing it, Bob spit it out of his mouth; we did not learn what became of the nose. Drake left the camp immediately after the fight and has not since been heard from.

GONE.—Mr. Thos. Hughes and family of Sota Bar, have left the county and gone to San Francisco to reside. Messrs. Blesser, Whitman and one or two others from Indian Valley passed through this town on the stage on Wednesday, all leaving the county to locate in some other locality. Mr. Price and family, and Mr. McGinness of Indian Valley, have gone to Truckee, and we hear of several others who intend leaving us a short time. What's the matter of Plumas?

DOES the management of a Radical Board of Supervisors have anything to do with it? DEMOCRATIC MEETING.—Hon. J. M. A. Johnson addressed a large and enthusiastic meeting at the Court Room in this place last night. He spoke for two hours and was listened to with marked attention. He dealt in no vituperation or abuse against his opponents, but he did send home to the Republicans a number of truths which made a number of them wince. It was an effective speech. We are pleased to state that Johnson will beat Hartshorn over 3,000 majority in this District, that's a dead sure thing. Mr. Henry did not fill his appointment, owing to a change being made in the order of the Central Committee.

## From the North Fork.

ED. UNION.—The only local item of importance in this vicinity at present, is the striking of new diggings in what is known as the Wild Cat channel, by Messrs. Mather & Johns, who have found a first rate prospect, and one, that will no doubt last. Messrs. Lamb & Buffington have also found a prospect in the same channel about 2,000 feet from where Mather & Johns have located. The channel is situated about 200 feet above, and runs parallel with what is known as the Lower channel in which the rich chains of Messrs. Hickman, Drake and Orton. The gold and gravel found in the Wild Cat channel is of the same character, as that found in the lower channel, which together with the position in which the gold is found in the gravel, (being in a strata of gravel not upon the bed rock) and the relative position of the channels, leaves no doubt but the rich deposits in the lower channel are derived from the Wild Cat channel. Should this prove to be the case, Caribou will in time, be able to boast of one of the richest and most extensive drift diggings ever found in Plumas.

Caribou, Oct. 7th, 1868.

HOW A PECK OF CORN MEAL IS TAXED.  
The Gallipolis Dispatch, in answer to the charge that because a man is poor he cannot be taxed, thus shows how even a peck of meal, purchased by a poor man to aid in feeding his family of little children, is taxed, to aid in paying the interest on the untaxed bonds. Says the Dispatch:

"The corn from which that peck of meal was made, was raised on taxed land, plowed by a taxed plow, drawn by taxed horses, hitched with taxed gears. It was hoed with a taxed hoe, cultivated with taxed implements, gathered with taxed wagons, drawn with taxed horses, thrown into a taxed crib, shelled on a taxed machine, measured in a taxed measure, taken in a taxed sack and ground in a taxed mill, sieved through a taxed sieve, mixed in a taxed pan, stirred with a taxed spoon, salted with taxed salt, put into a taxed bake pan, baked in a taxed oven, laid out on a taxed plate, cut with a taxed knife, and lastly eaten by a taxed man."

"If it were not for taxes, you could buy a bushel of meal for what that peck cost you. Besides, it is not on that alone that you are taxed, but upon everything you have to buy. A pound of sugar costs only three or four cents, but you have to pay sixteen to twenty. A pound of coffee only costs ten cents, but you have to pay thirty, and if it costs you three hundred dollars a year to support your family, you may safely say one-half of this is tax. Now, is it any wonder that times are hard and that you find it difficult to live?"

LOOK TO THE REGISTER.—Every citizen should remember.

First.—That he cannot vote unless his name is on the Great Register of his county.

Second.—That he cannot vote unless his name is on the poll list of the ward or district in which he resides.

Third.—That while the Great Register lasts forever the poll lists are good for one election only, and that new poll lists have to be made for each election.

Fourth.—That while it may be the duty of the Clerk of the Election Board to put on the new poll list the names of all parties on the old one whom he personally knows to be still residing in the district, he may neglect to do so; and he cannot know them all, however anxious he may be to do his duty.

Fifth.—That the only way to be certain of the right to vote is for each citizen to see for himself that his name is on the poll list.

Sixth.—That it's the duty of all parties to vote at the coming Election for Seymour and Blair, and to do so they must look to the poll list.

STATE REGISTRY BOARD.—The following resolution was adopted by the State Board of Registry at a meeting held the 16th day of September, for the guidance of County Clerks and Boards of Registration in regulating and enrolling voters:

Resolved, That for the purpose of avoiding burdenous expense to voters, the following rules and regulations be adopted, under the thirty-eighth section of the Registry Act, for the government of County Clerks and Clerks of Election: First.—That no personal application need be made for the transfer of the name of a voter, either on the Great Register or poll list, but such application may be made by any respectable third person, and the certificate of transfer of registration may be presented to the County Clerk of any county to which the voter has removed by any person for him, and no affidavit or personal application for registration in the latter county shall be required unless the County Clerk shall have reason to suspect the good faith of the application. Second.—That it shall be the duty of each Clerk of Election to copy from the preceding poll list of his precinct the names of every voter who is known to him, or to have died or become disqualified.

PRESIDENTIAL ELECTORS.—Suppose all the States are allowed to vote for President, there will be 319 votes in the electoral College of 1869, as follows:

Alabama	8	Mississippi	7
Arkansas	5	Nebraska	3
California	5	Nevada	3
Connecticut	6	New Hampshire	5
Delaware	2	New Jersey	7
Florida	3	New York	92
Georgia	5	North Carolina	9
Illinois	14	Ohio	21
Indiana	12	Oregon	3
Iowa	5	Pennsylvania	26
Kansas	3	Rhode Island	4
Kentucky	11	South Carolina	6
Louisiana	7	Tennessee	10
Maine	7	Texas	6
Maryland	5	Vermont	5
Massachusetts	12	Virginia	10
Michigan	8	West Virginia	6
Minnesota	4	Wisconsin	3
Missouri	11		

WHAT IT IS.—A vote for Grant is a vote to increase the large public debt that is now weighing us down—to continue the Freedmen's Bureau to feed lazy negroes.
